

Dear Business Owner/Entrepreneur . . .

As a fellow business owner in Dolwyddelan, I am pleased to extend an invitation to join us in forming a vibrant local business group. Our goal is to create a supportive network where we can come together to share ideas, offer mutual support, and collaborate on initiatives to drive the growth and development of our community.

Why Join Us?

- **Networking Opportunities:** Connect with other local businesses and establish valuable relationships that can lead to partnerships, referrals, and new opportunities.
- **Idea Sharing:** Share your insights, experiences, and innovative ideas with like-minded entrepreneurs. Together, we can share solutions to common challenges and explore new avenues for growth.
- **Mutual Support:** In our close-knit rural community, supporting each other is essential. Whether it's providing advice, sharing resources, collaboration or lending a helping hand.
- **Community Development:** By working together, we can contribute to the overall development and prosperity of Dolwyddelan. Explore ways to enhance our local economy, attract visitors, potential funding and initiatives that help create a thriving business environment.
- **Visibility of Funding:** Provide a way to communicate news of any Welsh business funding and initiatives which are regularly promoted in a timely and supported way.

Our First Meeting:

We plan to hold our inaugural meeting on **Weds 19th June 09:30am** at **Snowdonia Hub, Hafod Gwennlian LL25 0JF**. This will be an opportunity for us to introduce ourselves, discuss a vision for the group and ideas for future activities and initiatives.

If your business base is within the LL25 postcode (micro 'Gig Economy', Professionals to Ltd businesses) and wish to participate, please RSVP to this article by 5th June to confirm your attendance and receive further details about the meeting.

Shaping the Future:

Together, we have the potential to make a significant impact on the success of our businesses and the prosperity of our community. I hope
